### CUSTOM INCENTIVE MEASURES

For gas-saving measures not covered by common incentive measures, we offer custom incentives. Pre-approved projects receive a one-time incentive based on estimated first-year savings up to 50% of project costs to a maximum of \$100,000.

#### Types of custom projects eligible for incentives:

- Energy monitoring systems
- Insulation for processes and non-building envelope improvements
- Heat Recovery Units
- Heating equipment sizes larger than our common incentive program

Energy savings will be achieved through upgrades of existing commercial end-uses or through the specification of high-efficiency equipment for new commercial expansion or upgrade projects. Customer must be currently on or converting to firm gas heating rates in order to be eligible for National Grid Energy Efficiency programs.

For customized measures not listed in this brochure, please contact National Grid Efficiency at **1-800-843-3636** or email [efficiency@nationalgrid.com](mailto:efficiency@nationalgrid.com).
